7 the school district or public school academy provides direct
8 English language development instruction.

9 (f) Implement a multi-tiered system of supports that is an
10 evidence-based framework that uses data-driven problem solving to
11 integrate academic and behavioral instruction and that uses
12 intervention delivered to all pupils in varying intensities based
13 on pupil needs. The multi-tiered system of supports must be
14 implemented in grades K to 12, or, if the school district or public
15 school academy does not operate all of grades K to 12, for all of
16 the grades it operates. The multi-tiered system of supports
17 described in this subdivision must provide at least all of the
18 following essential components:

19 (i) Team-based leadership.

29 amount not to exceed 2% of the amount received from weighted

1 foundation payments under section 22b of the state school aid act
2 of 1979, MCL 388.1622b, may be used to support administrative costs
3 related to complying with this section. Administrative costs
4 include, but are not limited to, central office salaries and
5 benefits, business and fiscal services, and school administrative
6 staff and expenses, and do not include costs associated with direct
7 instructional staff working with pupils counted toward the weighted
8 pupil membership.

9 (h) Provide information to the department, in a form and
10 manner determined by the department, necessary for the department
11 to monitor programs and services described in this section for
12 compliance with the requirements of this section, and to ensure the
13 multi-tiered system of supports and English language learner
14 programs are implemented with fidelity.

15 (i) Allow access for the department or the department's
16 designee to audit all records related to the program for which it
17 receives those funds. The district shall reimburse this state for
18 all disallowances found in any audit.

19 (j) Communicate the following information to parents and legal
20 guardians at least annually, as applicable for grades offered by
21 the school district or public school academy:

22 (i) Literacy-related results for the school district or public
23 school academy, including multiyear trend data, from the grade 3
24 Michigan student test of educational progress (M-STEP), the grade 7
25 Michigan student test of educational progress (M-STEP), and the SAT
26 for pupils who are economically disadvantaged or English language
27 learners. The school district or public school academy shall ensure
28 that information described in this subparagraph is reported in a
29 manner that safeguards pupil privacy.

(ii) Information detailing the amount of funding received from weighted foundation payments under section 22b the state school aid act of 1979, MCL 388.1622b, how the school district or public school academy distributed that funding, and what evidence-based interventions were implemented with that funding. The information reported under this subparagraph must include a method, including contact information, for parents or legal guardians to provide feedback on the use of the funding as well as to seek more information about services and interventions available for their children.

(2) The department shall establish English language learner program models that establish a minimum number of minutes per week that school districts and public school academies must provide direct English language development instruction for pupils according to the pupil's proficiency levels. The program models described in this subsection must be compliant with federal requirements related to English language learner program services.

(3) The department shall monitor school districts and public school academies for compliance with this section and may require school districts and public school academies to provide any information to the department, in a form and manner determined by the department, necessary to fulfill this requirement.
