

**SUBSTITUTE FOR
SENATE BILL NO. 947**

A bill to amend 1994 PA 451, entitled
"Natural resources and environmental protection act,"
by amending sections 31502, 31503, 31504, 31505, 31506, 31507,
31508, 31509, 31510, 31511, 31513, 31515, 31516, 31517, 31518,
31520, 31521, and 31523 (MCL 324.31502, 324.31503, 324.31504,
324.31505, 324.31506, 324.31507, 324.31508, 324.31509, 324.31510,
324.31511, 324.31513, 324.31515, 324.31516, 324.31517, 324.31518,
324.31520, 324.31521, and 324.31523), sections 31502, 31503, 31504,
31505, 31507, 31508, 31510, 31511, 31513, 31515, 31516, 31517,
31518, 31520, 31521, and 31523 as added by 1995 PA 59, section
31506 as amended by 1995 PA 100, and section 31509 as amended by
2004 PA 325, and by adding sections 31506a, 31509a, 31509b, 31517a,
31518a, 31518b, 31518c, 31518d, 31528a, and 31528b.

THE PEOPLE OF THE STATE OF MICHIGAN ENACT:

1 Sec. 31502. (1) ~~"Abandonment" means an affirmative act on the~~
2 ~~part of an owner to discontinue maintenance or operation of a~~
3 ~~dam.~~ **"Additional spillway capacity" means modification to an**
4 **existing spillway or construction of an auxiliary spillway to**
5 **increase flow conveyance capabilities of the dam.**

6 (2) "Administrative procedures act of 1969" means ~~Act No. 306~~
7 ~~of the Public Acts of 1969, being sections 24.201 to 24.328 of the~~
8 ~~Michigan Compiled Laws.~~ **the administrative procedures act of 1969,**
9 **1969 PA 306, MCL 24.201 to 24.328.**

10 (3) "Alteration" means a change in the design of an existing
11 dam that directly affects or may directly affect the structural
12 integrity of a dam.

13 (4) "Appurtenant works" means the structure or machinery
14 incident to or annexed to a dam that is built to operate and
15 maintain a dam, including ~~spillways,~~ **any of the following:**

16 **(a) Spillways,** either in a dam or separate from the dam. ~~low~~

17 **(b) Low level outlet works.** ~~and water~~

18 **(c) Water** conduits such as tunnels, pipelines, or penstocks,
19 located either through the dam or through the abutments of the dam.

20 (5) "Auxiliary spillway" means a secondary spillway ~~which that~~
21 ~~is operational at all times and does not require stoplog removal or~~
22 ~~gate manipulation.~~ **designed to activate or be operated only during**
23 **large flood flow events.**

24 (6) "Dam" means an artificial barrier, including dikes,
25 embankments, and appurtenant works ~~that impounds,~~ **meets all of**
26 **the following requirements:**

27 **(a) Impounds,** diverts, or is designed to impound or divert
28 water or a combination of water and any other liquid or material in

1 the water. ~~that is~~

2 (b) Is, or will be when complete, 6 feet or more in height. ~~and that has~~

4 (c) Has or will have ~~an~~ 1 of the following:

5 (i) An impounding capacity at design flood elevation of 5
6 surface acres or more. ~~Dam~~

7 (ii) For a high hazard potential or significant hazard
8 potential dam, an impounding capacity at design flood elevation of
9 15 acre-feet or more.

10 (7) Dam does not include a storage or processing tank or
11 standpipe constructed of steel or concrete, a roadway embankment
12 not designed to impound water, or a dug pond where there is no
13 impoundment of water or waste materials containing water at levels
14 above adjacent natural grade levels.

15 (8) ~~(7)~~ "Days" means calendar days, including Sundays and
16 holidays.

17 (9) ~~(8)~~ "Design flood" means the design flow rate for spillway
18 capacity and dam height design.

19 (10) ~~(9)~~ "Design flood elevation" means the maximum flood
20 elevation that is considered in the design of the spillway capacity
21 and freeboard for a dam.

22 (11) ~~(10)~~ "Downstream toe elevation" means the elevation of
23 the lowest point of intersection between the downstream slope of an
24 earthen embankment and the natural ground.

25 Sec. 31503. (1) "Emergency action plan" means a plan developed
26 by the owner that establishes procedures for notification of the
27 department, public off-site authorities, and other agencies of the
28 emergency actions to be taken ~~prior to~~ before, during, and
29 ~~following~~ after an impending or actual failure of a dam.

1 (2) "Enlargement" means any change in or addition to an
2 existing dam ~~which~~**that** raises or may raise the design flood
3 elevation of the water impounded by the dam.

4 (3) "Failed dam" means a dam not capable of impounding water
5 at its intended level due to a structural deficiency.

6 (4) "Failure" means an incident resulting in an unplanned or
7 uncontrolled release of water from a dam.

8 (5) "Flood of record" means the greatest flow rate determined
9 by the department to have occurred at a particular location.

10 (6) "Freeboard" means the vertical distance between the design
11 flood elevation and the lowest point of the top of the dam.

12 (7) "Half probable maximum flood" means the largest flood that
13 may reasonably occur over a watershed ~~—~~and is derived from the
14 combination of hydrologic runoff parameters and the half probable
15 maximum ~~storm~~**precipitation** that produces the maximum runoff.

16 (8) "Half probable maximum ~~storm~~**precipitation**" means the
17 spatial and temporal distribution of the probable maximum
18 precipitation, divided by 2, that produces the maximum volume of
19 precipitation over a watershed.

20 (9) "Hazard potential classification" means a reference to the
21 potential for loss of life, property damage, and environmental
22 damage in the area downstream of a dam in the event of failure of
23 the dam or appurtenant works.

24 (10) "Height" means the difference in elevation measured
25 vertically between the natural bed of a stream or watercourse at
26 the downstream toe of the dam, or, if it is not across a stream
27 channel or watercourse, from the lowest elevation of the downstream
28 toe of the dam, to the design flood elevation or to the lowest
29 point of the top of the dam, whichever is less.

(11) "High hazard potential dam" means a dam located in an area where a failure may cause serious damage to inhabited homes, agricultural buildings, campgrounds, recreational facilities, industrial or commercial buildings, public utilities, ~~main highways, or in areas with a population density greater than or equal to 5,000 people per square mile, interstate roads, other freeway roads, other principal arterial roads as defined in the National Functional Classification (NFC) system, class I carrier~~ railroads, ~~or~~ where environmental degradation or natural resource damage would be significant, or where danger to individuals exists with the potential for loss of life.

Sec. 31504. (1) "Impoundment" means the water held back by a dam.

(2) "Inflow design flood" means the flood hydrograph entering the reservoir that is used to design or modify a specific dam and its appurtenant works, including, but not limited to, sizing the spillway and outlet works and evaluating the maximum storage, height of the dam, and freeboard requirements.

(3) ~~(2)~~—"Low hazard potential dam" means a dam located in an area where failure may cause damage limited to agriculture, uninhabited buildings, structures, or ~~township or county~~ minor collector roads, local roads, or nonrated roadways as defined in the National Functional Classification (NFC) system, where environmental degradation would be minimal, and where danger to individuals is slight or nonexistent.

(4) ~~(3)~~—"Maintenance" means the upkeep of a dam and its impoundment and appurtenant works but does not include alterations or repairs.

(5) ~~(4)~~—"One-hundred year flood" means a flood that has a 1%

1 chance of being equaled or exceeded in any given year.

2 (6) ~~(5)~~ "Owner" means a person ~~who~~**that** owns, leases,
3 controls, operates, maintains, manages, or proposes to construct a
4 dam.

5 (7) "Probable maximum flood" means the largest flood that may
6 reasonably occur over a watershed and is derived from the
7 combination of hydrologic runoff parameters and the probable
8 maximum precipitation that produces the maximum runoff.

9 (8) ~~(6)~~ "Probable maximum precipitation" means the
10 theoretically greatest depth of precipitation for a given duration
11 that is physically possible over a given size storm area at a
12 particular geographic location at a certain time of year.

13 Sec. 31505. (1) "Removal" means the physical elimination of a
14 dam or impoundment.

15 (2) "Repair" means to substantially restore a dam to its
16 original condition and includes only ~~such~~ restoration ~~as~~**that** may
17 directly affect the structural integrity of the dam.

18 (3) "Riparian owner" means a person ~~who~~**that** has riparian
19 rights.

20 (4) "Riparian rights" means rights ~~which~~**that** accrue by
21 operation of law to a landowner on the banks of an inland lake or
22 stream.

23 (5) "Significant hazard potential dam" means a dam located in
24 an area where its failure may cause damage limited to isolated
25 inhabited homes, agricultural buildings, structures, ~~secondary~~
26 ~~highways, short line or minor arterial roads or major collector~~
27 **roads as defined in the National Functional Classification (NFC)**
28 **system, railroads not classified as class I, or public utilities in**
29 **areas with a population density less than 5,000 people per square**

1 **mile**, where environmental degradation may be significant, or where
2 danger to individuals exists.

3 (6) "Spillway" means a waterway in or about a dam designed for
4 the discharge of water.

5 (7) "Spillway capacity" means the maximum rate of discharge
6 that will pass through a spillway at design flood elevation.

7 ~~(8) "Two-hundred year flood" means a flood that has a 0.5%~~
8 ~~chance of being equaled or exceeded in any given year.~~

9 Sec. 31506. (1) Except as otherwise provided in subsections
10 (2) and (3), dams and impoundments in ~~the~~ **this** state are under the
11 jurisdiction of the department.

12 (2) The following are exempt from this part:

13 ~~(a) Projects licensed, projects that have preliminary permits,~~
14 ~~or projects for which an application for licensure has been filed~~
15 ~~under the federal power act, chapter 285, 41 Stat. 1063, 16 U.S.C.~~
16 ~~791a to 793, 796 to 797, 798 to 818, 820 to 824a, and 824b to 825r,~~
17 ~~if federal dam safety inspection provisions apply during the~~
18 ~~license period and the inspection reports are provided to the~~
19 ~~department.~~

20 ~~(a) (b)~~ Projects located on boundary waters under the
21 jurisdiction and supervision of the United States ~~army corps~~ **Army**
22 **Corps** of ~~engineers~~ **Engineers**.

23 ~~(b) (e)~~ Impoundments licensed ~~pursuant to~~ **under** part 115 that
24 contain or are designed to contain type III wastes as defined in
25 rules promulgated under that part.

26 ~~(3) Until January 1, 1998, a permit shall not be required~~
27 ~~under this part for the repair, reconstruction, or improvement of a~~
28 ~~dam, a portion of which is at least 75 years old, was damaged or~~
29 ~~destroyed by an act of God and is located in a county that has a~~

~~per capita income of less than \$8,500.00. However, a person who is performing a project for the repair, reconstruction, or improvement of a dam that is exempt from obtaining a permit under this subsection shall submit to the department and the joint capital outlay committee plans and specifications for the project. These plans and specifications shall be prepared by a licensed professional engineer and shall meet acceptable standards in the industry in order for a dam to be repaired, reconstructed, or improved. In reviewing plans and specifications for the project, the joint capital outlay committee may recommend environmental considerations to protect water quality such as underspill devices, minimum flow releases and removal of contaminated sediments that may be resuspended in the water column upon impoundment. Such contaminated sediments shall be disposed of in accordance with state law.~~

(3) Documents submitted under this section for a dam licensed under the federal power act, 16 USC 791a to 825r, that are designated critical energy infrastructure by the United States Department of Energy under section 215A(d) of the federal power act, 16 USC 824o-1, are not subject to disclosure under the freedom of information act, 1976 PA 442, MCL 15.231 to 15.246.

Sec. 31506a. If a dam or impoundment was previously licensed under the federal power act, 16 USC 791a to 825r, and the dam or impoundment subsequently comes under the jurisdiction of this state, the owner shall provide the department with the full inventory of information that was previously provided to the Federal Energy Regulatory Commission as part of the requirements for licensure under the federal power act, 16 USC 791a to 825r.

Sec. 31507. (1) A person shall not construct, enlarge, repair,

1 reconstruct, alter, **or** remove ~~, or abandon any~~ a dam except in a
 2 manner provided for in this part.

3 (2) This section does not apply to maintenance performed on a
 4 dam that does not affect the structural integrity of the dam.

5 Sec. 31508. (1) ~~Except as otherwise provided in subsection~~
 6 ~~(2), a~~ **A** licensed professional engineer shall prepare all plans and
 7 specifications **and the comprehensive evaluation under section**
 8 **31518a**, except for minor projects undertaken ~~pursuant to under~~
 9 section 31513.

10 ~~(2) A person who is not a licensed professional engineer may~~
 11 ~~prepare plans and specifications only for repairs or alterations to~~
 12 ~~a dam where the application is made by a nonprofit organization~~
 13 ~~under the following circumstances:~~

14 ~~(a) The nonprofit organization has assets of less than~~
 15 ~~\$30,000.00, is exempt from taxation under section 501(c)(3) of the~~
 16 ~~internal revenue code of 1986, 26 U.S.C. 501, and is not composed~~
 17 ~~primarily of the owners of property adjacent to or contiguous to an~~
 18 ~~impoundment.~~

19 ~~(b) The proposed repairs or alterations have a projected total~~
 20 ~~cost of less than \$25,000.00.~~

21 ~~(c) The impoundment is open to the public and a notice of~~
 22 ~~public access is posted.~~

23 **(2) Plans and specifications prepared under subsection (1) and**
 24 **a comprehensive evaluation under section 31518a must include**
 25 **documentation that demonstrates that the licensed professional**
 26 **engineer or design team preparing the plans and specifications and**
 27 **comprehensive evaluation has successfully completed or been in**
 28 **consultation with licensed professional engineers who have, at a**
 29 **minimum, completed 5 similar projects, including any of the**

1 following project types:

2 (a) Construction of a new dam.

3 (b) Reconstruction of a failed dam.

4 (c) Enlargement of a dam.

5 (d) Complex alteration of a dam, such as significant
6 rehabilitation or reconstruction of an existing dam.

7 (e) Removal of an existing dam.

8 Sec. 31509. (1) Except as otherwise provided in this part or
9 as authorized by a permit issued by the department ~~pursuant to~~
10 **under** part 13, a person shall not undertake any of the following
11 activities:

12 (a) Construction of a new dam.

13 (b) Enlargement of a dam or an impoundment.

14 (c) Repair of a dam.

15 (d) Alteration of a dam.

16 (e) Removal of a dam.

17 ~~(f) Abandonment of a dam.~~

18 **(f)** ~~(g)~~ Reconstruction of a failed dam.

19 (2) An application for a permit ~~shall~~**must** include **any**
20 information that the department determines is necessary for the
21 administration of this part **and a first-filling plan or refilling**
22 **plan, as applicable.** If a project includes activities at multiple
23 locations, 1 application may be filed for the combined activities.

24 (3) An application for a permit for construction of a new dam,
25 reconstruction of a failed dam, or enlargement of a dam ~~shall~~**must**
26 be accompanied by the following fees:

27 (a) **Until 6 months after the effective date of the 2026**
28 **amendatory act that amended this section, a fee as follows:**

29 **(i)** For a dam with a height of 6 feet or more but less than 10

1 feet, \$500.00.

2 **(ii)** ~~(b)~~ For a dam with a height of 10 feet or more but less
3 than 20 feet, \$1,000.00.

4 **(iii)** ~~(c)~~ For a dam with a height of 20 feet or more, \$3,000.00.

5 **(b)** Beginning 6 months after the effective date of the 2026
6 amendatory act that amended this section, a fee as follows:

7 **(i)** For a dam with a height of 6 feet or more but less than 10
8 feet, \$1,500.00.

9 **(ii)** For a dam with a height of 10 feet or more but less than
10 20 feet, \$2,500.00.

11 **(iii)** For a dam with a height of 20 feet or more, \$8,000.00.

12 **(4)** An application for a permit for the repair, alteration, or
13 removal of a dam must be accompanied by a fee as follows:

14 **(a)** Until 6 months after the effective date of the 2026
15 amendatory act that amended this section, \$200.00.

16 **(b)** Beginning 6 months after the effective date of the 2026
17 amendatory act that amended this section, ~~application for a permit~~
18 for the repair ~~, or~~ alteration ~~, of a dam,~~ \$500.00, and for the
19 removal ~~, or abandonment of a dam, shall be accompanied by a fee of~~
20 ~~\$200.00, and an~~ \$1,000.00.

21 **(5)** An application for a permit for a minor project pursuant
22 ~~to~~ **under** section 31513(1) ~~shall~~ **must** be accompanied by a fee ~~of~~ **as**
23 **follows:**

24 **(a)** Until 6 months after the effective date of the 2026
25 amendatory act that amended this section, \$100.00.

26 **(b)** Beginning 6 months after the effective date of the 2026
27 amendatory act that amended this section, \$300.00.

28 **(6)** Beginning 6 months after the effective date of the 2026
29 amendatory act that amended this section, an application for a

1 minor revision or transfer of a permit issued under this part that
 2 is applied for in writing must be accompanied by a fee as follows:

3 (a) Subject to subdivision (b), \$500.00.

4 (b) If the permit was issued as a minor project, \$50.00.

5 (7) If a person submits an application for the transfer of the
 6 permit issued under this part, in addition to the fee required
 7 under subsection (6), the application must be accompanied by a
 8 written agreement between the current and new owners or operators
 9 of the dam that contains a specific date for the transfer of
 10 responsibility, coverage, and liability under the permit.

11 (8) ~~(5)~~ The department shall waive the fees under this section
 12 for applications from state agencies, department sponsored projects
 13 located on public lands, and ~~organizations of the type described in~~
 14 ~~section 31508(2)(a) through (c).~~ any nonprofit organization that
 15 meets the following requirements:

16 (a) Has assets of less than \$30,000.00 and that is exempt from
 17 taxation under section 501(c)(3) of the internal revenue code of
 18 1986, 26 USC 501.

19 (b) Is not composed primarily of the owners of property
 20 adjacent or contiguous to an impoundment.

21 (9) If work is done to a dam in violation of a permit
 22 requirement under this part, the department shall consider
 23 accepting, and may accept, an application for a permit if the
 24 application is accompanied by a fee equal to twice the application
 25 fee otherwise required under this section.

26 (10) ~~(6)~~ The department shall forward fees collected under
 27 this section to the state treasurer for deposit in the land and
 28 water management permit fee fund created in section 30113.

29 (11) At any time before an application is submitted under this

1 section, an applicant for a permit may request, in writing, a
 2 preapplication meeting with the department. The preapplication
 3 meeting request must include the requested location of the meeting
 4 and the appropriate fee as specified under this subsection. Not
 5 later than 30 days after the preapplication meeting request is
 6 received, unless an alternative timeline is agreed to by both
 7 parties, the department shall meet with the applicant to review a
 8 proposed project or a proposed permit application in its entirety.
 9 A preapplication meeting must take place at the department's
 10 district office for the district that includes the project site or
 11 at the project site itself, as specified in the preapplication
 12 meeting request. A preapplication meeting request must be
 13 accompanied by a fee as follows:

14 (a) For a preapplication meeting at the district office,
 15 \$150.00.

16 (b) For a preapplication meeting at the project site, \$300.00.

17 Sec. 31509a. (1) The department shall establish a staggered
 18 registration process that meets all of the following conditions:

19 (a) Is divided into 5 rounds and each round lasts not more
 20 than 2 years, with the first round of registrations beginning 6
 21 months after the effective date of the 2026 amendatory act that
 22 added this section.

23 (b) Registers 1/5 of all dams in this state each round.

24 (c) Identifies the dams that are subject to registration in
 25 each round based on hazard potential classification and other
 26 relevant considerations.

27 (2) Subject to subsection (1), an owner shall register all of
 28 its dams with the department on a form and in a manner prescribed
 29 by the department. The application for a registration under this

1 section must include all of the following information:

2 (a) Proof of ownership of the dam.

3 (b) An asset management plan for all dams owner, that includes
4 all of the following information:

5 (i) An inventory of all dam assets.

6 (ii) An assessment of conditions, remaining life, and critical
7 deficiencies and failure modes, and a life cycle cost analysis.

8 (iii) An assessment of probability and consequences of dam
9 failure.

10 (iv) A list of funding sources adequate to cover estimated life
11 cycle costs.

12 (v) A performance evaluation that includes regulatory
13 compliance, inspection schedule, instrumentation monitoring, and
14 internal operations.

15 (c) A demonstrated compliance with this part that includes all
16 of the following:

17 (i) A current inspection report under section 31518 and a plan
18 and schedule approved by the department to address any deficiencies
19 identified in the inspection report, if applicable.

20 (ii) For high hazard potential and significant hazard potential
21 dams, a current, comprehensive evaluation report under section
22 31518a, and a plan and schedule approved by the department to
23 address any deficiencies identified in the comprehensive evaluation
24 report, if applicable.

25 (iii) A current surveillance and monitoring plan under section
26 31518b.

27 (iv) A current operation and maintenance plan under section
28 31518c.

29 (v) A current safety and security plan under section 31518d.

1 (d) Any additional information that the department determines
2 is necessary for dam safety.

3 (3) An application for a registration under this section must
4 be accompanied by 1 of the following fees, as applicable:

5 (a) For a dam with a height of 6 feet or more but less than 10
6 feet, \$300.00.

7 (b) For a dam with a height of 10 feet or more but less than
8 20 feet, \$650.00.

9 (c) For a dam with a height of 20 feet or more, \$2,000.00.

10 (4) A fee collected under subsection (3) must be deposited in
11 the land and water management permit fee fund created in section
12 30113.

13 (5) A registration issued under this section is valid for 10
14 years. Not later than April 1 of the year the registration expires,
15 an owner shall submit both of the following to renew a
16 registration:

17 (a) An application for registration under subsection (2).

18 (b) The appropriate fee under subsection (3).

19 (6) The department shall approve or deny an application for a
20 registration not later than 120 days after the application is
21 complete. The department shall deny an application for registration
22 that does not sufficiently demonstrate that the public health,
23 safety, welfare, property, or natural resources, or the public
24 trust in those natural resources, is protected.

25 (7) The department may revoke a registration, after notice and
26 opportunity for a hearing in accordance with the administrative
27 procedures act of 1969, for any of the following reasons:

28 (a) A violation of the terms of the registration or a change
29 in the condition of the dam.

1 (b) The owner failed to disclose relevant facts or otherwise
2 obtained a registration by misrepresentation.

3 (c) The dam is subject to any of the following:

4 (i) An order under section 31518(7).

5 (ii) An order to limit dam operations or an order for the
6 removal of the dam under section 31519.

7 (iii) An emergency order under section 31521.

8 (iv) Any other violation under section 31524.

9 (8) If the department revokes a registration under subsection
10 (7), the department shall notify the owner in writing of the
11 revocation not later than 30 days after the hearing and state the
12 deficiency and request additional information.

13 (9) If the department denies a registration under subsection
14 (6) or revokes a registration under subsection (7), the owner shall
15 submit a revised application for registration not later than 180
16 days after the notification is received under subsection (6) or
17 (8).

18 (10) An owner can transfer a registration to a new owner if
19 both of the following conditions are met:

20 (a) The new owner is willing and financially capable of
21 complying with the terms of the registration.

22 (b) The owner receives written approval from the department
23 for the transfer.

24 (11) The owner shall submit a request for transfer of a
25 registration under subsection (10) on a form and in a manner
26 prescribed by the department. The request for a transfer of a
27 registration must be accompanied by a written agreement between the
28 owner and new owner that states a specific date for the transfer of
29 responsibility.

1 **Sec. 31509b. Beginning January 1, 2029, and not later than**
 2 **January 1 every 3 years thereafter, the department shall adjust the**
 3 **fees described in sections 31509 and 31509a by an amount as**
 4 **determined by the state treasurer at the end of the preceding**
 5 **fiscal year, rounded to the nearest 10 dollars, to reflect the**
 6 **cumulative percentage change in the United States Consumer Price**
 7 **Index from the most recent 3-year period for which data are**
 8 **available from the Bureau of Labor Statistics of the United States**
 9 **Department of Labor.**

10 ~~Sec. 31510. (1) A person who wants to be notified of pending~~
 11 ~~applications for permits issued under this part may make a written~~
 12 ~~request to the department, accompanied by an annual fee of \$25.00.~~
 13 ~~The fee shall be deposited in the state treasury and credited to~~
 14 ~~the general fund.~~

15 ~~(2) The department shall prepare a biweekly list of the~~
 16 ~~applications made during the previous biweekly period and shall~~
 17 ~~promptly mail copies of the list for the remainder of the calendar~~
 18 ~~year to the persons who have requested notice and paid the fee~~
 19 ~~under this section.~~

20 ~~(3) The biweekly list shall state the name and address of each~~
 21 ~~applicant, the legal description of the lands included in the~~
 22 ~~applicant's project, and a summary statement of the purpose of the~~
 23 ~~project.~~ **The department shall post on its website, and establish a**
 24 **process to provide email notification of, both of the following:**

25 **(a) A list of pending applications for registration under**
 26 **section 31509a.**

27 **(b) Public notices and a schedule of public hearings under**
 28 **section 31511.**

29 **Sec. 31511. (1) ~~Upon~~ On receipt of an application for a permit**

1 under ~~this part,~~ **section 31509**, the department shall submit copies
 2 of the application ~~accompanied by~~ **for a permit with** a statement
 3 ~~indicating that indicates~~ that the department may act ~~upon~~ **on** the
 4 application **for a permit** without a public hearing unless a written
 5 request is filed with the department ~~within~~ **not later than** 20 days
 6 after the submission for review. The department shall submit copies
 7 of the application to all of the following:

8 (a) The local unit of government where the project is to be
 9 located.

10 (b) The adjacent riparian owners.

11 (c) Any person considered appropriate by the department.

12 (d) Any person ~~who~~ **that** requests copies.

13 (e) A watershed council, organized ~~pursuant to~~ **under** part 311,
 14 of the watershed within which the project is located or ~~is to~~ **will**
 15 be located.

16 (2) The department may hold a public hearing ~~upon~~ **on** the
 17 written request of any of the following:

18 (a) An applicant.

19 (b) A riparian owner.

20 (c) A person or local unit of government that is entitled to
 21 receive a copy of the application ~~pursuant to~~ **under** subsection (1).

22 ~~(3) A public hearing held pursuant to this section shall be~~
 23 ~~held in compliance with the open meetings act, Act No. 267 of the~~
 24 ~~Public Acts of 1976, being sections 15.261 to 15.275 of the~~
 25 ~~Michigan Compiled Laws. Public notice of the time, date, and place~~
 26 ~~of the hearing shall be given in the manner provided by that act.~~
 27 ~~Additionally, the department shall mail copies of the public notice~~
 28 ~~to the persons who have requested the biweekly list pursuant to~~
 29 ~~section 31510, the person requesting the hearing, and the persons~~

1 ~~and local units of government that are entitled to receive a copy~~
 2 ~~of the application pursuant to subsection (1).~~

3 **(3) The department may issue a conditional permit before the**
 4 **expiration of the 20-day period provided under subsection (1) if**
 5 **emergency conditions exist and warrant the project to protect**
 6 **property or public health, safety, or welfare.**

7 Sec. 31513. (1) The department shall promulgate rules **in**
 8 **accordance with the administrative procedures act of 1969** to
 9 establish minor project categories for alterations and repairs that
 10 have minimal effect on the structural integrity of a dam. The
 11 department may act ~~upon~~**on** an application and grant a permit for an
 12 activity or project within a minor project category, after an on-
 13 site inspection of the dam, without providing public notice.

14 (2) All other provisions of this part ~~shall be~~**are** applicable
 15 to minor projects, except that a final inspection by the department
 16 or certification of the project by a licensed professional engineer
 17 ~~shall is~~ not ~~be~~ required for a project completed under a permit
 18 ~~granted pursuant to~~**issued under** subsection (1).

19 Sec. 31515. (1) Except as otherwise provided in this section,
 20 a permit issued by the department under this part ~~shall~~**must**
 21 require that plans and specifications be approved by the department
 22 before construction begins. The department shall approve or reject
 23 complete plans and specifications ~~within~~**not later than** 60 days
 24 ~~after their receipt.~~**the plans and specifications are received.** The
 25 permitted activity ~~shall~~**must** be completed within a specified time
 26 not to exceed 2 years after the date ~~of issuance of~~ the permit **is**
 27 **issued.** ~~Upon~~**On** the written application of the permittee, and for
 28 good cause shown, the department may extend the time for completing
 29 construction. The permittee shall notify the department at least 10

1 days before beginning construction and shall otherwise notify the
2 department as the department may require.

3 (2) ~~A~~**The permittee shall not implement a** change in approved
4 plans and specifications ~~shall not be implemented unless the~~
5 department gives its prior approval. The department shall approve
6 or reject changes in plans and specifications ~~within not later than~~
7 30 days after the **department receives the** request for the changes.

8 (3) A permit is effective for the length of time specified in
9 the permit unless ~~it the permit~~ is revoked ~~pursuant to under~~ this
10 part. The department may renew a permit.

11 (4) A permit to alter, repair, or construct a new dam,
12 reconstruct a failed dam, or enlarge the surface area of an
13 impoundment by more than 10% may specify the terms and conditions
14 including, but not limited to, requirements for minimum flows, cold
15 water release, impoundment fluctuations, portage, contingency
16 plans, and conditions under which the work is to be performed. The
17 terms and conditions of a permit ~~shall must~~ be effective for the
18 life of the project. The department may consider, in issuing a
19 permit, any mitigating measures in conjunction with the permitted
20 activities and may make recommendations as to **means of** fish passage
21 that may be required by part 483.

22 (5) A permit to construct a new dam, ~~or to~~ reconstruct a
23 failed dam, **or to enlarge, alter, or remove an existing dam** may
24 require a performance bond to ~~assure ensure~~ completion of the
25 project or to provide for complete or partial restoration of the
26 project site, as determined by the department in rules promulgated
27 by the department.

28 (6) ~~A permit may be suspended, revoked, annulled, withdrawn,~~
29 ~~recalled, canceled, or amended after~~ **After** a hearing **is held in**

1 accordance with the administrative procedures act of 1969, the
 2 department may revoke or modify a permit for a violation of any of
 3 its provisions, a violation of the permit, this part, a violation
 4 of or a rule promulgated under this part, or for any
 5 misrepresentation contained in the application for the permit.
 6 ~~Hearings shall be conducted by the department in accordance with~~
 7 ~~the provisions for contested cases in the administrative procedures~~
 8 ~~act of 1969.~~

9 Sec. 31516. (1) ~~Spillway~~ **Subject to subsection (4), spillway**
 10 capacity ~~shall~~ **must** meet the following minimum criteria:

11 (a) Low hazard potential dams ~~shall~~ **must** be capable of passing
 12 the 100-year flood, or the flood of record, whichever is greater.

13 (b) Significant hazard potential dams ~~shall~~ **must** be capable of
 14 passing the ~~200-year~~ **half probable maximum** flood, or the flood of
 15 record, whichever is greater.

16 (c) High hazard potential dams ~~, less than 40 feet in height,~~
 17 ~~as measured from the 200-year design flood elevation to the lowest~~
 18 ~~downstream toe elevation, shall be capable of passing the 200-year~~
 19 ~~flood, or the flood of record, whichever is greater.~~

20 ~~(d) High hazard potential dams, 40 feet or greater in height,~~
 21 ~~as measured from the 200-year design flood elevation to the lowest~~
 22 ~~downstream toe elevation, shall~~ **must** be capable of passing the half
 23 probable maximum flood, ~~-. The half probable maximum flood criterion~~
 24 ~~may be reduced to not less than the 200-year flood, with proper~~
 25 ~~documentation evidencing a failure of a dam under half probable~~
 26 ~~maximum flood conditions will not cause additional flood damage or~~
 27 ~~loss of life.~~ **or the flood of record, whichever is greater.**

28 **(d)** ~~(e)~~ Spillway design capacity ~~shall not~~ **must** be **not** less
 29 than the flood of record.

(2) Freeboard ~~shall~~**must** be considered when determining spillway capacity.

(3) If a dam cannot pass the design flood, ~~an auxiliary~~**additional** spillway **capacity** must be provided. The owner must document, to the satisfaction of the department, that the dam has sufficient spillway capacity, and that proper means are available to operate the spillway or spillways during the design flood.

(4) The criteria described under subsection (1) may be reduced in accordance with a site-specific, consequence-based, or risk-based inflow design flood study completed in a manner approved by the department.

Sec. 31517. (1) Except for minor projects authorized ~~pursuant to~~**under** section 31513, the owner shall do both of the following:

(a) ~~Within~~**Not later than** 10 days after the completion of a new, reconstructed, enlarged, repaired, or altered dam, notify the department of its completion.

(b) ~~Within~~**Not later than** 20 days after submitting the notice of completion, file with the department as-built plans and a statement signed by a licensed professional engineer ~~certifying~~**that certifies** that the project was constructed in conformance with plans and specifications approved by the department.

(2) The department shall inspect the project and ~~shall~~ provide the owner with written notice of final approval **after the project is completed** if the project is determined to have been completed in accordance with approved plans, specifications, and permit conditions. **The department may also inspect the project during construction of the project.**

(3) If the project is determined not to be completed in accordance with **approved** plans, ~~and specifications approved by the~~

1 ~~department~~**specifications**, and permit conditions **described under**
 2 **subsection (2)**, the department shall provide notice to the
 3 permittee as to the specific reasons the department determines the
 4 project not to be completed in accordance with ~~these~~**the** plans,
 5 specifications, or **permit** conditions. The department may then take
 6 enforcement action as provided in this part.

7 **(4) Nothing in this act is construed to relieve an owner of**
 8 **the legal duties, obligations, or liabilities incident to the**
 9 **ownership or operation of a dam or impoundment.**

10 **(5) An action must not be brought against this state or the**
 11 **department for the recovery of damages caused by the partial or**
 12 **total failure of a dam as a result of the department's inspection**
 13 **or regulation of the dam under this part.**

14 **Sec. 31517a. (1) An owner shall prepare and keep current**
 15 **operations and maintenance records for each dam owned by the owner.**
 16 **The operations and maintenance records must, at a minimum, contain**
 17 **all of the following:**

18 **(a) A brief description of the major elements of the dam.**

19 **(b) Operation procedures during normal and high flows.**

20 **(c) Emergency action plans.**

21 **(d) Copies of recent inspection reports submitted to the**
 22 **department under section 31518.**

23 **(e) Maintenance work order procedures.**

24 **(f) Sample maintenance and inspection forms.**

25 **(g) Key contact information.**

26 **(2) An owner shall prepare and keep current a surveillance and**
 27 **monitoring plan for each dam owned by the owner.**

28 **(3) An owner shall maintain all of the records described under**
 29 **this section and make the records available to the department on**

1 **request.**

2 Sec. 31518. (1) An owner shall submit to the department
3 inspection reports prepared by a licensed professional engineer
4 that evaluate the condition of the dam. The inspection report ~~shall~~
5 **must** be submitted as follows:

6 (a) Not less than once every ~~3 years~~**year** for high hazard
7 potential dams.

8 (b) Not less than once every ~~4~~**2** years for significant hazard
9 potential dams.

10 (c) Not less than once every 5 years for low hazard potential
11 dams.

12 (2) The department shall determine the hazard potential
13 classification ~~of~~**for** all dams and ~~shall~~ establish an inspection
14 schedule. The **department shall notify the owner of each dam's**
15 **hazard potential classification, the effective date of each hazard**
16 **potential classification, and each dam's hazard potential history.**
17 **Not later than 30 days after the owner receives the department's**
18 **notice of a dam's hazard potential classification, the owner shall**
19 **provide the department with information regarding how the owner**
20 **will meet the requirements of the dam's hazard potential**
21 **classification, including, but not limited to, spillway capacity,**
22 **emergency action plan, inundation mapping requirements, and an**
23 **inspection schedule. An inspection schedule shall developed under**
24 **this subsection must** require annual submission of inspection
25 reports for ~~approximately 1/3 of~~ all high hazard potential dams,
26 ~~1/4~~**1/2** of all significant hazard potential dams, and 1/5 of all
27 low hazard potential dams. The department shall notify **the** owners
28 in writing when inspection reports are due. The department may
29 order additional inspection reports following an event or change in

1 condition that could threaten a dam.

2 (3) An inspection report required by this section ~~shall~~**must**
3 include, at a minimum, all of the following:

4 (a) An evaluation of the dam's condition, spillway capacity,
5 operational adequacy, and structural integrity.

6 (b) A determination of whether deficiencies exist that could
7 lead to the failure of the dam.

8 (c) Recommendations for maintenance, repair, and alterations
9 of a dam as are necessary to eliminate any deficiencies.

10 (d) **A schedule to address deficiencies that is approved by the**
11 **department. An owner violates this part if the owner fails to**
12 **address deficiencies in accordance with the schedule approved under**
13 **this subdivision. The department may modify the schedule under this**
14 **subdivision to address deficiencies based on the conditions of the**
15 **dam.**

16 (e) **An assessment of the appropriateness of the current hazard**
17 **potential classification established under subsection (1) taking**
18 **into consideration the current conditions that exist downstream of**
19 **the dam. An assessment under this subdivision must consider**
20 **conditions related to damage as identified under a significant**
21 **hazard potential dam classification and serious damage as**
22 **identified under a high hazard potential dam classification that**
23 **might have changed since the effective date of the current hazard**
24 **potential classification established under subsection (1).**

25 (f) **An assessment of operations and maintenance based on the**
26 **requirements of the current operation and maintenance records**
27 **prepared under section 31517a.**

28 (g) **An evaluation of the risk or changes in risk of**
29 **significant hazard potential and low hazard potential dams, if**

1 applicable.

2 (h) A review of the original design, construction,
3 maintenance, repair, and probable failure mode records of high
4 hazard potential and significant hazard potential dams, if
5 applicable.

6 (i) Recommendations for more detailed investigations or
7 evaluations as needed to determine the condition of the dam.

8 (4) Instead of engaging a licensed professional engineer to
9 prepare an inspection report, local units of government or an
10 organization of the type described in section ~~31508(2)(a) through~~
11 ~~(e)~~-**31509(5)** may request the department to conduct a visual
12 inspection of a dam owned by that local unit of government and
13 prepare a report on the condition of the dam in accordance with
14 subsection (3). The department shall notify a requesting local unit
15 of government as to when the inspection is to occur.

16 (5) If an inspection report discloses the need for a more
17 detailed investigation or evaluation of certain dam features for
18 the purpose of determining the condition of the dam, the department
19 may order the completion and submission of that detailed
20 investigation or evaluation at the expense of the owner. An
21 investigation or evaluation required under this subsection ~~shall~~
22 **must** be conducted under the supervision of a licensed professional
23 engineer.

24 (6) If an owner does not submit an inspection report as
25 required by subsection (1) or conduct additional investigations if
26 required by subsection (5), the department or any person ~~who~~-**that**
27 would have life or property threatened by a breach of the dam may
28 have a report prepared and recover the costs of preparing the
29 report in a civil action. ~~commenced in a court of competent~~

1 ~~jurisdiction.~~ This subsection does not limit the right of any
2 person to bring a cause of action ~~in a court of proper jurisdiction~~
3 to compel an owner to comply with the requirements of this part.

4 (7) If, based on the findings and recommendations of the
5 inspection report, ~~and an inspection by the department, or if~~ the
6 department finds that a condition exists ~~which~~ **that** endangers ~~a the~~
7 dam, ~~it the department~~ shall order the owner to take actions that
8 the department considers necessary to alleviate the danger.

9 **Sec. 31518a. (1) For high hazard potential and significant**
10 **hazard potential dams, an owner shall submit to the department a**
11 **comprehensive evaluation report prepared by a licensed professional**
12 **engineer that evaluates the overall safety of the dam. For low**
13 **hazard potential dams, the department may require an owner to**
14 **submit a comprehensive evaluation report as provided under this**
15 **subsection. The comprehensive evaluation report must be submitted**
16 **not less than once every 10 years on a schedule determined by the**
17 **department.**

18 (2) The comprehensive evaluation report must include, but is
19 not limited to, a detailed evaluation and recommendation for all of
20 the following:

21 (a) The dam's condition, spillway capacity, operational
22 adequacy, and structural integrity.

23 (b) The adequacy of the dam's original design and
24 construction.

25 (c) The adequacy of the dam's operation and maintenance
26 procedures.

27 (d) Probable failure modes and risk reduction measures.

28 (e) Conformance with current dam safety practices.

29 (f) Any deficiencies that exist that could lead to failure of

1 the dam.

2 (g) Maintenance, repair, and alterations of a dam that are
3 necessary to eliminate the deficiencies described under subdivision
4 (f).

5 Sec. 31518b. (1) An owner shall prepare, and keep current, a
6 surveillance and monitoring plan and submit the plan to the
7 department for review. The surveillance and monitoring plan must be
8 consistent with standard engineering practices.

9 (2) A surveillance and monitoring plan must include, but is
10 not limited to, all of the following information:

11 (a) The name, address, and telephone number of the owner, and
12 any agent or employee of the owner responsible for the operation of
13 the dam.

14 (b) Information necessary to evaluate probable failure modes
15 of the dam.

16 (c) An assessment of current and past surveillance and
17 monitoring data.

18 (d) Recommendations for any necessary analyses or remedial
19 actions.

20 (3) The owner shall notify the department of any concerning
21 findings of surveillance and monitoring data within 24 hours.

22 Sec. 31518c. An owner shall prepare, and keep current, an
23 operation and maintenance plan and submit the plan to the
24 department for review. An operation and maintenance plan must
25 include all of the following information:

26 (a) A description of the dam.

27 (b) Contact information for the dam owner and any agent or
28 employee of the owner that is necessary to the operation of the dam
29 and each individual's responsibilities.

(c) An inspection schedule and checklist for routine dam safety inspections conducted by the owner.

(d) A description of normal and emergency dam operation procedures.

(e) A log of normal and emergency dam operation procedures.

(f) A description of normal and emergency dam maintenance procedures.

(g) A log of normal and emergency dam maintenance procedures.

(h) Contact information and notification procedures for upstream and downstream owners, if applicable.

Sec. 31518d. (1) An owner shall prepare and keep current a safety and security plan and submit the plan to the department for review. A safety and security plan must include all of the following information:

(a) A summary of all physical safety measures at the dam, including any signage, waterway barriers, safety fencing, railings, or other safety devices.

(b) A summary of all physical security measures at the dam, including security cameras, alarms, security fencing, gates, doors, barriers, or other security devices.

(c) A response plan for any safety and security issues at the dam, which must include, at a minimum, all of the following:

(i) Dam personnel detection and reporting procedures.

(ii) Notification flow charts and call lists.

(iii) Response procedures.

(iv) A safety and security incident report template.

(2) The owner shall notify the department of any safety or security incidents within 24 hours after the incident occurs.

Sec. 31520. (1) The owner ~~or his or her agent~~ shall advise the

1 department and the affected off-site public authorities and safety
 2 agencies of any sudden or unprecedented flood or unusual or
 3 alarming circumstance or occurrence, **whether** existing or
 4 anticipated, that may affect the safety of the dam within 24 hours
 5 ~~of~~**after** the flood, circumstance, or occurrence.

6 (2) The owner shall notify the department as soon as possible
 7 of any necessary emergency drawdowns, repairs, breaching, or other
 8 action being taken in response to an emergency condition.

9 Sec. 31521. (1) The department may issue **to an owner a written**
 10 ~~emergency orders as provided in this section. The department may,~~
 11 ~~by written notice, order an owner~~ **order that requires the owner** to
 12 immediately repair, draw down, breach, **remove**, or cease operation
 13 of a dam ~~where a~~ **if the** dam is in imminent danger of failure ~~and or~~
 14 is causing or threatening to cause harm to public health, safety,
 15 welfare, property, or the natural resources or the public trust in
 16 those natural resources.

17 (2) If an owner fails to comply with an **emergency** order **under**
 18 **subsection (1)**, or is unavailable **to** or ~~unable to~~ **cannot** be
 19 contacted, ~~then~~ the department may undertake immediate repair,
 20 drawdown, breaching, **removal**, or cessation of operation ~~, as that~~
 21 may be necessary to alleviate the danger. ~~, and~~ **Except for the 5**
 22 **years after a dam has come under the ownership of local government**
 23 **by means of tax foreclosure, the department** may recover from the
 24 owner the costs incurred in a civil action. ~~commenced in a court of~~
 25 ~~competent jurisdiction.~~ The department may terminate an emergency
 26 order ~~upon~~ **on** a determination in writing that all necessary
 27 emergency actions have been complied with by the owner and that an
 28 emergency no longer exists.

29 (3) ~~(2) When ordering~~ **In an** emergency ~~actions~~ **order** under

subsection (1), the department may ~~specify~~ **do any of the following:**

(a) **Specify** a maximum drawdown level. ~~and~~

(b) **Specify** discharge rates. ~~and require sediment~~

(c) **Require any of the following:**

(i) **Sediment** surveys. ~~, water~~

(ii) **Water** quality sampling. ~~, monitoring, or any~~

(iii) **Monitoring.**

(iv) **Any** other action determined necessary by the department to ensure adequate protection of the public health, safety, welfare, property, or natural resources or the public trust in those natural resources.

(4) The department may modify the requirements of an emergency order if ~~, during the conduct of ordered actions, it~~ **the department** determines that the modification is necessary to protect the public health, safety, welfare, property, or natural resources or the public trust in those natural resources.

(5) ~~(3) Upon~~ **Not later than 15 days after** the issuance of an emergency order **under subsection (1),** the department shall provide the owner with an opportunity for a hearing ~~pursuant to~~ **under** the administrative procedures act of 1969. ~~within 15 days of the date of its issuance.~~ **The department may proactively schedule a hearing under this subsection, but the owner shall submit a petition to request the hearing not later than 15 days after the issuance of an order under this section before a hearing can be held.** At the hearing, the department shall determine, based on information and fact, if the emergency order ~~shall~~ **must** be continued, modified, or suspended as necessary to protect public health, safety, welfare, property, or natural resources or the public trust in those natural resources.

1 (6) A hearing held under subsection (5) does not preclude the
 2 owner or department from immediately taking action as necessary to
 3 alleviate danger of failure of a dam.

4 Sec. 31523. (1) An owner shall prepare, and ~~keep current, on a~~
 5 **form and in a manner prescribed by the department,** emergency action
 6 plans for all high and significant hazard potential dams owned by
 7 that person. **An owner shall annually review and update, as**
 8 **necessary, emergency action plans and submit the plans to the**
 9 **department.**

10 (2) Emergency action plans ~~shall prepared or updated under~~
 11 **this section must** be submitted to the department, **county or local**
 12 **emergency management coordinators, and all local entities with**
 13 **zoning approval authority located within the inundated zone.**

14 (3) The applicable county or local emergency management
 15 coordinators shall review for consistency **any** emergency action
 16 plans **prepared or updated under subsection (1)** with the county or
 17 local emergency operations plan ~~prior to submission of those before~~
 18 **submitting the plans** to the department.

19 (4) An emergency action plan ~~shall prepared or updated under~~
 20 **subsection (1) must** be consistent with the applicable provisions of
 21 the affected county or local emergency operations plans and the
 22 Michigan emergency preparedness plan ~~as developed pursuant to under~~
 23 ~~the emergency preparedness act, Act No. 390 of the Public Acts of~~
 24 ~~1976, being sections 30.401 to 30.420 of the Michigan Compiled~~
 25 ~~Laws.~~ **management act, 1976 PA 390, MCL 30.401 to 30.421.**

26 (5) ~~Emergency~~ **An emergency** action plans ~~shall plan prepared or~~
 27 **updated under subsection (1) must** include, but not be limited to,
 28 ~~the all of the following:~~

29 (a) **The** name, address, and telephone number of the person, and

1 of an alternate person, responsible for operation of the dam. ~~the~~

2 (b) The name and telephone number of **county or** local emergency
3 management coordinators. ~~and a~~

4 (c) A listing of occupied facilities, buildings, and
5 residences that may be threatened with flooding due to a failure of
6 the dam.

7 (d) Mapping that is adequate to clearly delineate the areas of
8 inundation resulting from a failure of the dam.

9 (6) If a high hazard potential or significant hazard potential
10 dam is located on a river system with multiple dams, the owner
11 shall coordinate preparation, updating, exercising, and activation
12 of emergency action plans under this section with the owners of the
13 other dams on the river system.

14 (7) An owner shall exercise an emergency action plan prepared
15 or updated under this section at least once every 5 years.

16 Sec. 31528a. (1) The dam safety emergency fund is created
17 within the state treasury. The state treasurer may receive money or
18 other assets from any source for deposit into the fund. The state
19 treasurer shall direct the investment of the fund and credit to the
20 fund interest and earnings from fund investments. Money in the fund
21 at the end of the fiscal year remains in the fund and does not
22 lapse to the general fund. The department is the administrator of
23 the fund for auditing purposes.

24 (2) On appropriation, the department shall expend money from
25 the fund to take remedial or corrective actions that remove or
26 reduce significant safety risks posed by dams when an owner is
27 unable or unwilling to take remedial or corrective action. Except
28 for the 5 years after a dam has come under the ownership of local
29 government by means of tax foreclosure, the department and the

1 department of attorney general may recover costs expended from the
2 fund under this subsection from an owner. Recovered costs must be
3 deposited in the fund.

4 (3) As used in this section, "fund" means the dam safety
5 emergency fund created under subsection (1).

6 Sec. 31528b. (1) The department shall establish a dam risk
7 reduction grant program as provided in this section.

8 (2) The program must provide grants to owners to complete any
9 of the following projects:

10 (a) Repair or alteration of a dam.

11 (b) Removal of a dam.

12 (c) Scoping and engineering plans associated with any of the
13 actions described in subdivisions (a) and (b).

14 (3) An owner shall apply to the program on a form and in a
15 manner prescribed by the department. To be eligible to receive a
16 grant from the program, the owner must be able to contribute
17 matching funds of at least 10%.

18 (4) As used in this section, "program" means the dam risk
19 reduction grant program created under subsection (1).
